### Headteacher's Message

I would like to say how proud I am of all our Year 6 children. On one level, SATs measure Maths and English, but they also show our children how much they can achieve if they work hard towards a goal. From talking to the Year 6s this week, they were all proud of what they have achieved and also know how proud we are of them - they also liked the sausage butties!

### Scooters

We are loving how many children are coming to school on scooters. We are hoping it will help keep our children healthier, be enjoyable for them and reduce traffic around school. We also know that scooters can be expensive. We are trying to think of ways how school could support families borrow scooters. If you have any ideas, let me know.

### Star of the Week

Thank you to all our stars of the week. I always ask the children which subject they enjoy best. We usually get a good mixture of answers. This week though it was all about art! This was pleasing as Mr Comer has worked hard to support all the teachers with art this year and we have seen how much progress all the children have made!

## Year 4

This week we have began our new art unit, working in three dimensions. We started by exploring how Antony Gormley uses different textures in his artwork, followed by completing some observational drawings of eyes. We were very impressed by the pride both classes took in their work.

## Year 6

We could not be more proud of our Year 6 children - not only this week but based on the entire year! They have consistently shown resilience, determination and pride, which has allowed them to enter this week feeling ready and confident.

Looking at this week alone, we feel that they have shown every quality that an Alexandra Park pupil should. This has meant the whole week has been enjoyable for all - although I am sure if you asked them, they'd say the best bit was the breakfast!

Whilst their SATs are done, we are confident they will continue to demonstrate these fantastic qualities as we move toward the end of the year. Our work now will focus on finishing strong and preparing for high school.

Thank you to all our Year Sixes and all of the staff who have supported them this week. Great effort team Alex Park!

## Important dates

End of Summer 1	Friday 24th May 2024
Start of Summer 2	Monday 10th June 2024
