

# Nursery Overview of Learning

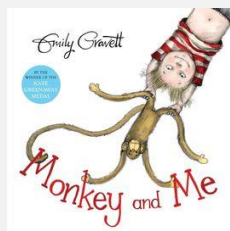

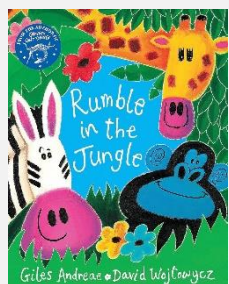

## Spring 2

### This half term in N Rosen, we will be exploring...

#### Literacy

In Literacy, we will be sharing two key texts, 'Monkey and Me' and 'Rumble in the Jungle' and continue to develop our concepts about print.

We will also continue to use some print and letter knowledge in writing, by labelling our drawings and writing more recognisable letters in our names. We will continue to practise the following beery shapes too...

#### Maths

In Maths, we will revisit and extend our learning of one-to-one correspondence with up to 3 objects. We will also introduce the 'cardinal principle' which is the understanding that the last number said, is the total number of objects. We will explore the meaning of 'same' and 'different' as we enhance our construction skills. We will further develop our subitising skills by recognising up to 3 dots at once without counting them. We will also revisit our learning on comparison by making collections, using the language 'more', 'fewer', 'same'.

#### 'Down in the Jungle'

This half term, our topic is Down in the Jungle. We are learning all about a jungle habitat; this includes what it looks like, which animals live there and where

jungles are in the world. We are also exploring what a zookeeper does and learning about how they take care of different animals. We will use our bodies and voices to take on the role of different animals too!

#### Phonics

In Phonics, we will continue exploring aspects 1-7 of Phase 1 with a particular focus on aspects 4-6 (rhythm and rhyme, alliteration, voice sounds). We will think about how when words rhyme, they have the same end sound. We will also recognise the initial sound of people/animals/objects, e.g., how 'snake' begins with a "ssss" sound. We will then be finding more objects beginning with the same sound.
