

Nursery Overview of Learning

Summer 2

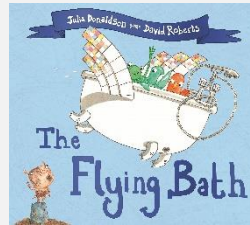

This half term in N Rosen, we will be exploring...

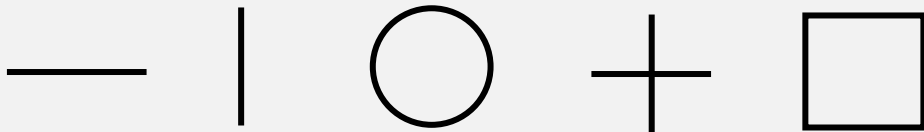

Literacy

In Literacy, we will be sharing two key texts, 'Daisy and the Egg' and 'The Flying Bath' and continue to develop our concepts about print.

We will use print and letter knowledge in writing by labelling our drawings and writing our names confidently. We will continue to practise the following beery shapes too...

Maths

In Maths, we will continue to develop our counting skills by counting up to 5 objects with one-to-one correspondence. We will count out 5 objects from a

larger group and explore counting 5 in different ways. We will begin to make marks to represent quantities too.

We will continue and create AB patterns and begin to notice errors in patterns. We will also begin to sequence some events. We will compare objects by matching, including recognising attributes of objects

and begin to sort some objects by type.

Splish, Splash, Splosh!

This half term, our topic is 'Splish, Splash, Splosh' where we will be exploring all kinds of places that contain water, such as a bath, a pond, the beach and under the sea. We will be learning all about a pond including pond wildlife, textures and exploring the life-cycle of a frog. We will explore what a beach looks like in different countries and also, discover what lives beneath the sea.

Phonics

In Phonics, we will continue exploring aspects 1-7 of Phase 1 with a particular focus on

aspect 7 (oral segmenting and blending). We will continue to use Fred Talk to orally segment and blend CVC words. We will review our learning of the Read Write Inc picture cards and begin to learn sounds in isolation which will be shared weekly on Seesaw.
